Lisa,

Any further updates toward a response?

Hi Bob – I'm running this by Karen Marsh and Marcia Mia – I'll get back to you shortly. It may be after the holidays depending on Marcia's vacation schedule..

**Subject:** OOOOa Question

Lisa,

I'm not sure if you are the right person to contact regarding the following question, but am hoping you can pass this along if you are not the one.

The question is:

If I have a facility that is looking to relocate two fiberglass oil/condensate tanks and an oil/water separate from an abandoned facility to another permitted compressor station does this relocation trigger requirements under NSPS OOOOa. A review of both the regulation and the ADI shows there are several determinations in the ADI for other NSPS regulations that said relocation does not trigger construction, reconstruction, or modification. However, I wanted to confirm this would apply to NSPS OOOOa as well.
